**Industrial Experience**

Business Type:

Indicate Years of Experience	Area
<input type="text"/>	Energy Management
<input type="text"/>	Energy Efficiency
<input type="text"/>	Industrial Facility Energy Auditing
<input type="text"/>	Industrial Equipment
<input type="text"/>	Energy Management Information Systems (EMIS)

Detail Industrial Experience in the following table:

Industrial Facility Component	Project/Work Experience	Training
Boiler Plant Systems	<input type="text"/>	<input type="text"/>
Building Envelope (Construction, Insulation, Condition)	<input type="text"/>	<input type="text"/>
Compressed Air Systems	<input type="text"/>	<input type="text"/>
Process Hot Water Systems	<input type="text"/>	<input type="text"/>
Fans and Pump Systems	<input type="text"/>	<input type="text"/>
Heating, Ventilation, and Air-Conditioning Systems	<input type="text"/>	<input type="text"/>
Lighting Systems and Lighting Controls	<input type="text"/>	<input type="text"/>
Process Furnaces, Dryers, and Kilns	<input type="text"/>	<input type="text"/>
Refrigeration Systems	<input type="text"/>	<input type="text"/>
Steam and Condensate Systems	<input type="text"/>	<input type="text"/>
Renewable Energy Systems	<input type="text"/>	<input type="text"/>

**Please attach a resume and any project related material in order to indicate your energy management and other industrial subject matter experience.**

By applying to the Industrial Energy Efficiency Services Program's Trade Network Directory, you acknowledge that you have reviewed the requirements and will comply with all NB Power IEES Program requirements for clients requesting enrollment into the IEES Program.

The NB Power IEES Program Guidelines and other related documents and requirements are mandatory to achieving the minimum acceptable standards for the IEES Program. The specific client requirements will ultimately determine what is required in the content of the report package, but minimum IEES program requirements must be met.

**Terms and Conditions**

- NB Power reserves the right to reject any applicants for the Industrial Energy Efficiency Services Program's Trade Network Directory.
- NB Power reserves the right to request additional information or clarification.
- Being on the Trade Network Directory does not confer any rights or an agency relationship of the Trade Network member nor does it imply the Trade Network member has been endorsed or qualified by NB Power.
- The Trade Network member shall not represent that they are in any way solely qualified to participate in the program nor shall they communicate to clients or potential clients that they are obligated to only use Trade Network members listed on the Directory.
- The Trade Network member acknowledges that information provided in the application can be shared publicly.
- NB Power reserves the right, in its sole discretion, which may be exercised arbitrarily, to remove any successful applicant from the Trade Network Directory at any time.

I certify that the information included in this application for the IEES Trade Network Directory ("the Directory") is true and complete. I acknowledge and agree to be bound by the terms and conditions stipulated by NB Power above.
