

Find your energy efficiency fortune!

Énergie NB Power

the power of possibility
débordant d'énergie

CREATING YOUR PAPER GAME:

1. Fold on the fold lines, folding the triangles to make a square.
2. Turn the game over and fold each corner into the centre.
3. Fold in half again and into quarters.
4. Put your fingers in to pinch and make opposite sides come together.

PLAYING THE GAME:

1. Pick a colour and spell out that colour choice by opening your fingers and alternating.
2. Look in and pick a number, then count that amount.
3. Now pick another number – that number is the number of times you will have to do what is beneath the number!
4. Have fun!

ORANGE

2

Make sure to turn off the lights when you leave a room

3

Always close the fridge door to keep the cold in

BLUE

4

Turn off the TV or computer if you aren't using it

1

Ask your teacher if you can be in charge of turning the lights off after school

8

Shut off the water while you brush your teeth

Take a shower instead of a bath to reduce your hot water use

5

Be a recycling champion!
Reduce, Reuse, Recycle

6

Reusable water bottles are awesome
