6.		Yes <input type="checkbox"/>	No <input type="checkbox"/>	Yes <input type="checkbox"/>	No <input type="checkbox"/>

Program Information

The **Low Income Energy Savings Program (LIESP)** will assist low-income homeowners in New Brunswick to reduce their energy consumption and energy costs through targeted energy efficiency retrofits.

Eligible homeowners will be offered a series of **upgrades**, such as the addition of basement, attic and wall insulation; ventilation for air quality or humidity issues; energy efficient light bulbs and low-flow shower heads to help reduce energy consumption. Homes can qualify for some or all of the potential upgrades.

Participation is limited and offered on a first come, first served basis dependent on upgrades required and funding availability. Please review our Program Guidelines that includes 'what to expect' at www.saveenergy.nb.ca/LIESP or request a copy by phone at 1-800-663-6272.

Documents Required*

To register for the program, the following documents must be provided:

- ☑ Your most current **Property Tax "bill"** to confirm you do not have taxes owing for the previous year. If there are any arrears, you will not be eligible.
- ☑ The most current income tax **Notice of Assessment** showing Line 15000 for **each adult living in the home**. Notices are issued by Canada Revenue Agency (CRA). You may request a copy of your Notice for free by calling CRA at 1-800-959-8281.

*We cannot accept substitutions for the above documents. Please provide **photocopies only** of the above documents, originals will not be returned.

Program Eligibility

To participate, the following criteria must be met:

- Homeowner(s) must be the owner(s) and live in the home as their primary residence, and it must be occupied year-round.
- Property Taxes for the previous year must be paid in full. If arrears are indicated you will not be eligible.
- The home must be structurally sound and qualify for at least one of the upgrades categories.
- The household income must be at or below the established **Housing Income Limits** (HIL) threshold set by the Department of Social Development.

Building Eligibility

The home must be 3 stories or less in building height, having a building area not exceeding 600 square meters (6458 square feet), and which is used for major occupancies classified as Group C (residential occupancies), defined in Part 9 of the National Building Code of Canada.

Buildings that are NOT eligible to participate in the Program include:

- Buildings currently for sale; or
- Buildings that have participated in the Low-Income Energy Savings Program and continue to be owned by the original applicant.

Please refer to the **Program Guidelines** for more information.

By signing this form below, the applicant has read and understands that the current LIESP Program Guidelines constitute the terms and conditions of the Program and agrees that all the information provided is accurate.

I/we understand that:

- All work will be completed within the terms and conditions, and within the timelines, specified herein and in the LIESP once our signed consent and approval has been provided;
- Any equipment installed will be subject to a manufacturer & contractor warranty specific to the equipment installed from the date of installation, and after this period will be our responsibility to maintain and service at our expense;
- All other work performed will be subject to a 24 month contractor warranty and will only be incurred with my/our signature. A post-audit inspection will be required to validate work completed and must be completed as part of the LIESP;
- NB Power shall not be liable or responsible in any way for the actual change in the level of efficiencies from upgrades as recommended through the LIESP.

Please review our **Program Guidelines** at www.saveenergy.nb.ca/LIESP or request a copy by phone at 1-800-663-6272.

Date:		Contact Information Below <i>Once your application has been received, please allow 4 to 6 weeks for processing.</i>
